

## **ENVIRONMENTAL POLICY**

### Guiding Principle

The WPA's environmental policy sets out the WPA's environmental principles and values. Its objective is to guide the WPA not only in its day-to-day management but also in its long-term developmental planning.

It seeks to ensure that the WPA's activities are planned and carried out in accordance with the following criteria: compliance with the applicable legal framework; desire to minimize any negative environmental impacts that may be associated with the WPA's activities; concern for the environment; and the desire to promote sustainable development.

The policy includes the following principles:

- Environmental compliance;
- Environmental protection;
- Sustainable development;
- Environmental management;
- Communication.
